### MEDICAL COLLEGES

Opened Yesterday With Very Bright Prospects.

A LARGER ATTENDANCE

Indications Are that Both Institutions Will Show a Considerable Increase. Increased Facilities for

Work.

The Medical College of Virginia and the The Medical College of Medicine both opened their sessions yesterday with bright prospects at both institutions. The cpening day was devoted to the matriculation of students and the preliminary work of the session at both schools.

haton of students and the preliminary work of the session at both schools.

It is too early yet to give the figures on the number of students enrolled, for there are many yet to come in, and they will be matriculating for thirty days or more yet. At the University College of Medicine the enrollment so far indicates a slightly larger attendance than last session, and it may considerably exceed that record. There were about 200 students last session, and the comparison of opening day records shows that this number will be fully equalled and perhaps excelled by twenty or thirty. It is a conservative estimate to expect that the total enrollment will reach 325, possibly more. Of that it is yet too early to speak positively. The capacity of the dental laboratory and operating rooms has been almost doubled, and the facilities for work greatly augmented. The dispensary too has been enlarged, and the facilities for practical work by students in all departments have been increased, it is not unlikely that several young lady students may enter for study in the pharmaceutical course. None have yet matriculated, however.

walkely that several young lady students may enter for study in the pharmaceutical course. None have yet matriculated, however.

THE OLD COLLEGE.

The Medical College of Virginia opened with pleasing prospects. Last session there were more than 200 students in all departments, and while too early yet to speak definitely, the opening day's enrollment indicates that fully that number will be in attendance. In fact, from the correspondence with prospective students during the summer there is reason to anticipate that the enrollment will reach 210 or 280. It may even exceed those figures. The opening day's work compares favorably with last year's, and a larger percentage of old students have returned than usual. The use of the building formerly known as the Old Dominion Hospital will afford very much more room for the work. A dental laboratory and library will be located in the hospital building adjoining the college proper, and facilities will thus be afforded for the dental and the medical and pharmacy students in the old college. In fact, the available room for practical work is almost doubled. Besides all this the college has the use of the spacious and admirably adapted clinic room in the new Memorial Hospital. A new department for the vivisection of animals has been added to the college course.

THE FREE LECTURES.

Another feature of public interest in connection with the new Memorial Hospital is the proposition to give free lectures on first aid to the injured by members of the hospital. Drs. Johnston, Horsley, Robins and Davidson will lecture there on emergency treatment of injured prepons, and it is expected that railway employes, street railway employes and men employed in various plants where engines and machinery are used will, by attendance on these lectures, be able to alleviate suffering and save life in cases of accidents. The Pennsylvania Railway requires its conductors to take such a course, so that in the event of a wreck at a point detain from the location of a railway surgeon the flow of blood

Friends of Messrs. H. E. Williams and

on their record made in an automobile trip from this city to Petersburg Sunday, the first auto trip of the kind undertaken by Richmonders. Despite unfamiliarity with the roads and the topography of the country and softness of the soil, they made the distance, about twenty-two miles, in an hour and thirty-four minutes. This almost equals the time made by the interurban railway cars. They made the journey in an Orient Buckboard pattern of vehicle. It is expected that they will try again and lower this time record.

GENERAL RISING

Bands in Eastern Macedonia Are Ordered to Begin Operations.

dered to Begin Operations.

(By Associated Press.)

SOFIA BULGARIA, September 29.—A telegram received here from the camp of General Zontcheff, the commander-inchief of the Macedonian Insurgents, at Razlog (fitty-five miles from Sofia), announces that a general rising was proclaimed September 27th in the districts of Razlog, Nevrokop, Demirhissar, Melnik and Seres, and that all the insurgent bands in Eastern Macedonia had received direct orders to begin operations.

The chief hope of the revolutionary organization now centers in the authorist in Eastern Macedonia, which is expected to assume considerable proportions, as the leaders there are all off cers of the Bulgarian reserve. This, the sympathizers with the Macedonian cause hope, will arouse a war feeling in the Bulgarian army and force the government to espouge the Macedonian cause.
